High-Potency B-Complex

Provides essential B vitamins (B1, B2, B3, B5, B6, and B12) to support energy metabolism, nervous system health, and cellular function.

Vitamin B12

Contains methylcobalamin, the bioactive form of B12, to support neurologic function, red blood cell formation, and patients with absorption challenges.

Folic Acid 1,000 mcg

Delivers high-strength folic acid (1,667 mcg DFE) to support DNA synthesis, red blood cell production, and increased folate needs.

Vitamin C & Biotin Support

Includes Vitamin C for antioxidant support and biotin (300 mcg) to assist with cellular metabolism and overall nutritional support.
