High-Potency B-Complex

Provides essential B vitamins (B1, B2, B3, B5, B6, and B12) to support energy metabolism, nervous system health, and cellular function.

Vitamin B12 Support

Contains cyanocobalamin (B12) to support neurologic function and red blood cell formation, helping maintain overall metabolic health.

Folic Acid 1,000 mcg

Delivers 1,667 mcg DFE to support DNA synthesis, red blood cell production, and increased folate requirements.

Vitamin C & Biotin Support

Includes Vitamin C for antioxidant protection and biotin (150 mcg) to support cellular metabolism and overall nutritional balance.
